ZIPSCREEN™

OUTDOOR SUNSHADE BLINDS

Zipscreen is the ultimate external screening solution for any outdoor area or window.

Specially designed for alfresco entertaining areas such as **pergolas**, **verandahs**, and **balconies**, it offers **privacy and protection** from the sun, wind, rain, and insects **all year round**. Also ideal for **home and office windows**, it serves as a sleek, secure, and durable alternative to traditional awnings & outdoor roller shutters. Your custom designed Zipscreen system can be made in widths of up to 5 metres or an impressive 7 metres with Zipscreen Extreme, offering you an external solution to fit almost any area.

Cleverly constructed with hidden interlocking parts, the Zipscreen system features self-aligning side channels enabling installation in out of square areas, unlike many outdoor shade blinds.

Suitable for both residential and commercial applications, options include an enclosed box, range of colours and various controls to suit your individual requirements.

ZIPSCREEN™

» FEATURES

SUN/UV PROTECTION

INSECT RESISTANT

WIND RESISTANT

PRIVACY

COASTAL APPROVED
(Zipscreen Extreme only)

Rated 6 on the Beaufort Wind Scale

Strong and durable, Zipscreen offers protection from the sun, UV rays, and inclement weather. In addition, its secure, custom-made fit can provide an insect-free environment to rest and relax in. Suited for a wide range of conditions, it is the perfect solution for any outdoor residential commercial and even coastal.

With various external fabric choices available, including popular screen mesh fabrics controlling the amount of visibility, Zipscreen will ensure you receive your desired level of privacy.

It's simple yet stylish design improves the presentation of any home or office, defining outdoor areas and extending your entertaining space from your kitchen or lounge. It also provides a sleek external finish to any window.
